

Masterton District Council

Mayor

Electing the Mayor

Garry DANIELL

Our District is in better shape!

During my three years as Mayor, the Council team and I have made many things happen, for example:

The Eagle Air service to Auckland.

Wastewater schemes at Tinui, Riversdale and Homebush are underway.

The water quality at Henley Lake is improving.

Ongoing support for local, national and international events.

The Council has balanced competitive tendering and cheaper finance with the need to provide employment and schedule infrastructure maintenance. It has also supported the development of age-care, health and education developments.

I will ensure greater co-operation between the Wairarapa Councils to create efficiencies and to develop broadband accessibility, irrigation & industry, education & employment.

My personal links to Wairarapa, business experience and Council knowledge will ensure projects and current initiatives will continue to give long-term benefits and opportunities to the District. I want to continue leading Masterton into the future.
