

Masterton District Council

At Large

Electing 5 Councillors

Judith CALLAGHAN

I have a background in farming, forestry, tourism, community affairs and pre-school education. I was also a government appointee to the Children's Board, worked for Riding for Disabled, N.C.W and Pony Club. I have served two terms on council and have some unfinished business to complete in the next three years i.e. Support for the storm-water disposal, urban

reticulation system, upgrades to rural roading and continued improvements to the southern entrance to Masterton.

The Homebush waste-water is progressing with construction of the ponds almost underway, and a decision on the disposal method pending.

I voted against the all weather athletic track as it was uneconomical in this present climate. However, the upgrading of Mawley Park and improved facilities for netball, at Colombo Road, are of a much higher priority.

I am my own person.

With a practical, outspoken, friendly, energetic and frank disposition I will make a good Councillor.
