

Masterton District Council

Urban Ward

Electing 4 Councillors

Lyn PATTERSON

Masterton – Our Town, Our People, Our Place. Accountability, enthusiasm and commitment have been my trademark as a first term Councillor. Making sure the basics are done well and planning for future core infrastructural needs for Masterton are critical. Priorities of investing in local economic and community development are the way in which we can

achieve a safer, healthier and more positive Masterton.

There's been a lot of talk on amalgamation: let's have an open and frank community discussion about what's best for our region and its people.

I chair Council's Audit Committee and am an active participant on other council committees and task groups.

As a Chartered Accountant, currently working part-time, and as a former financial advisor to local government, I will bring my professional skills and experience to the table.
