

Masterton District Council
Urban Ward
Electing 4 Councillors

Steph GUNDERSEN-REID

I moved to Masterton with my three sons in January of 2005 and fell in love with this unique and dynamic region. I have worked in Economic Development and with the Business community since 2005 and believe that Masterton has a huge amount of potential still to come. Currently I am the CEO of the Wairarapa Chamber of Commerce.

It is important that we make Masterton a place that people want to come to with their families to ensure continued positive growth of our economic and social wellbeing. To do this we need to make certain we have the capacity and quality infrastructure that allows for growth. This will assist with a positive direction for our communities.

I believe it is time for the younger generations to become involved in the direction of our region and ensure a future not only for ourselves but for our children.
