Project Details

What is your project?

Where is your project based?

How will your project benefit the Masterton District?

What are the key milestones/timeline for your project?

Climate change and resilience

Tell us about the climate change and/or resilience benefits of your project. To be eligible for the Climate Action Fund, it must align with at least one of these categories:

- Emission reduction
- Emission sequestration
- Resilience
- Biodiversity (with climate change outcomes)
- Water conservation
- Climate innovation

We don't expect that your project will align with all the categories. If you are applying for \$3,000 or more, please tell us the measureable outcomes of your project. If you need help or would like to discuss, call us on 06 370 6300 or email: climate@mstn.govt.nz

Emission reduction

Please tell us how your project will reduce emissions.

If you are applying for \$3,000 or more, please calculate the emissions your project will reduce per year.

Emission sequestration

Please tell us how your project will sequester emissions.

If you are applying for \$3,000 or more, please calculate the emissions your project will sequester. (this can be a longer term goal if required.)

Resilience

Please tell us how your project will help build resilience for the Masterton District community.

If you are applying for \$3,000 or more, please tell us how your project will impact our community (e.g. how many households/community members will benefit, or the number of resources saved/gained etc.).

Biodiversity (with climate change outcomes)

Please tell us how your project will impact our biodiversity.

If you are applying for \$3,000 or more, please measure how our biodiversity will benefit (e.g. number of trees to be planted, number of traps laid, area of land/metres of waterways protected etc.).

Water conservation

Please tell us how your project will conserve water.

If you are applying for \$3,000 or more, please
tell us how many litres of water your project will save per year.

Climate innovation

Please tell us what is innovative about your project.

If you are applying for \$3,000 or more, please measure how your project will make a difference (e.g. how many people will be affected, how it will benefit the community).

Does your project have any other climate benefits that you would like to tell us about?

Anything else?

Is there anything else you want to tell us? Maybe you've got a project plan you want to share, or your project has won an award. Is it the first of its kind, breaking new ground, or do you have photos that will help us get a better understanding of your application? Please attach any relevant documents or photos to this application.
